Varsity Basketball

Team ends good year

The Raider varsity basketball team defeated William Campbell in the first round of the Seminole District tournament last Wednesday night, but fell to tournament winner Nelson County in the second round Friday night.

The Raiders took the lead early in the William Campbell game, ahead 8-4 at the end of the first quarter and 20-11 at the end of the first half.

The Raiders dominated the boards on defense and controlled the tempo of the game in the third quarter, and held a 33-17 lead at the end of that period.

In the fourth quarter, the Raiders continued to control the game, forcing turnovers, and leading by as much as 22 points during this period.

The score stood at 51-34 as the buzzer sounded ending the game, and the Raiders left the E. C. Glass High School gymnasium with their first tournament victory in ten years.

Kim Humbles and Kevin Ferguson led Raider scorers against William Campbell with 11 and 10 points, respectively.

Rick Caldwell had nine points, Ron Carter eight, Jeff Miller six, Dennis Fleshman four, Greg Mayberry two and Bobby Carter one in the game.

Friday's game against Nelson County was a different story, however.

The Governors led 6-10 at the end of the first quarter and 25-12 at the end of the first half.

The Raiders became more controlled in the third quarter, but then Governors retained their lead, and the score at the end of that period was Nelson County 35, Appomattox 24.

Kim Humbles got into foul trouble as the Raiders began to make a run at the Governors in the final period of play. Humbles fouled out, and the Raider's momentum was disrupted. The game ended in 52-37 victory for Nelson County, who would go on to win the tournament in the final game against Rustburg, 53-50.

Kevin Ferguson and Kim Humbles led Raider scorers against Nelson County, with 14 and 13 points, respectively. Others scoring were Jeff Miller with seven points, Rick Caldwell with two, and Dennis Fleshman with one point.

"Nelson is a super basketball team," commented Coty DIckerson this week. "I think we learned a lot in the tournament, and in the season as a whole. We have a lot to look forward to next year," the coach added.

Ron Carter, Richie Guill and Kim Humbles will all be lost to graduation this year, but the remainder of the Raider team will return, and several of the players from this year's junior varsity team, which posted an 18-2 record.

"I'm proud of the way the team played this year," Dickerson c ontinued. "We went through a lot, but we always got along well, and this was a very coachable group of kids....We had some big ball games, such as the five over time games and the wins over Gretna and Rustburg," Dickerson added.

"it was a good year overall for our team, and we're looking forward to next year already," the coach concluded.

AMS discipline policy outlined

Appomattox Middle School makes every effort to provide an orderly environment conducive to maximum learning by each student. This means that we strive to have orderly, polite behavior in all areas of the school grounds, including the classroom, the cafeteria, and halls. To insure good behavior there is a specified discipline procedure which the faculty and principal, Mrs. Hezteine Foster, follow. Since the faculty and staff are convinced that middle school students need the support of caring parents a major part of the discipline procedure is designed to involve parents in helping their children behave in acceptable ways at school.

Teachers use the following appropriate techniques to solve discipline problems prior to referring the student to the principal:

a. Talk with the student after class, before school, in the hall outside class room, or after school.

b. Call the student's parents and discuss the problem.

c. Request the principal to meet with them and the student to discuss the problem.

d. Make adjustments within the classroom, such as change seating arrangement, give class supervision and assistance, and give praise when praise is deserved.

After a systematic plan has been followed by the teacher without results, the student is referred to the principal who uses the steps below:

a. First referral, the principal will talk with student and send a letter home.

b. Second referral, the principal will suspend the student to return to school the next morning with parents.

c. Third referral, principal will suspend student for three days to return at the beginning of fourth day with parents.

d. Fourth referral, principal will suspend and make referral to superintendent who will refer the ease to the school board.

Complete records regarding discipline problems are kept in the principal's office by the year. The purpose of all of our discipline procedures is to assure an atmosphere free of disruption and one which allows each student the opportunity to learn to their fullest potential. The staff believes that this is what parents desire for their children and, therefore, discipline is considered a cooperative effort between the school and the home.
